A. S. Watson & Co., Limited, HONGKONG DISPENSARY. October 27th, 1888.

The publication of this issue commenced

iongkong, wednesday, november 14, 1888

WE have already drawn attention to the marvellous manner in which His Excellency the Governor attempted to rush the scheme of Separate Drainage through the Council, with a secrecy which has aroused much indignation and not a little suspicion. To judge from the remarks of our morning contemporary, however, it might be supposed that the unofficial members of the Council and the community generally have embraced the scheme with effusiveness. While congratulating the Government upon the advocacy of the morning paper, it seems passing strange that the writer in the Preis should have stooped so far as to support the silly challenge given by the Governor to an anonymous public writer, because the great principle contained in anonymity has gone hand in hand with the liberty of the British press wherever that influence has beenfelt. When no personal charges are brought against any public servant, and Reinier was mortally wounded and has since the discussion is confined to purely pub- died. A sergeant major and three men of house in the Police Court to-day, charged lic matters, it is not customary that any writer in an English journal should put his pame at the furt of what he has written. So that it was, we think, a inistake on the part of our contemporary to sanction and applaud what appeared to be intended as a slur upon anonymous journalism. Our contemporary has not yet commenced to sign its articles,

of the spaces which are included in 'street-washing.' Residents merely deinto the storm-drains, and what is to be excluded; and it is plain that Mr Price. From Saigon to Cape Varela, light N.E. Mr Cooper, and the non-professional of the morning paper are unable to draw strong N.E. monsoon and clear weather, the line. One thing is certain, and that is that the public sewers from the Club westward are in a frightfully insanitary condition; and it, as Mr Price stated in his report of 30th June 1880, the housedrains then showed a very marked improvement upon the condition in which he found them in 1875, the inference is that the filth of the streets and lanes has had something to do with the continued puisance. In that report, the Surveyor General puts forward the argument that, as many of the house-drains in that The O. S. S. Co.'s steamer Orestes, from quarter had been reconstructed, and vastly improved, they could easily be maintained in a satisfactory condition, even in the dry season, by the additional waste water which would become available from the increased water supply. This long-promised increused water-supply has arrived, and with it have come Mr Cooper and the Separate System.

> If the Separate System of Drainage were intended to replace the nail system, and the advocates, of the new system were to condescend to explain clearly what objectionable matter is to be removed by each class of drain, some of the objections to the crude scheme new submitted might be done away with. Were it certain that all kinds of sewage would be swept out to sea beyond the Sulphur Channel every twenty-four hours, the pail system (which is often offensive enough) could be done away with. It may not be generally known that householders here pay personally, to the tune of some \$200,000 a year, for carrying out the pail system, although it is popularly believed that the Chinese contractor makes money by the business. In the consideration of the best and most economical system of sanitation, therefore, such an item should not be overlooked.

To return to the existing drains, however, it may be safely asserted, even by have in many cases to be reconstructed pore for this port at 1 pm. to-day. and junk-loads of solid black sewage removed from their surroundings, before this Separate System can be successfully | the O. S. S. Co.'s steamer Ajax, from Li. carried out. As we have frequently verpool, left Singapore for this port this pointed out, and as many unprofessional residents' well know -Mr Chadwick. old-fashioned, cast-off garment, made a very grave and serious point of this danger-the soakage of the earth caused | branch of the Soldiers and Sailors' Families by leaking sewage from the ineffective Association. condition of the main drains has been years. Therefore, it will not be sufficient merely to utilise these percolating pest-lanes for what is euphoniously called storm-water. They will have to be taken up and made sweet; and the cost of this must, we presume, be added to the estimate for the new system. While, therefore, congratulating a discussion which will doubtless clear escapes of prisoners from the chain gang. up many matters that now remain in cannot too strongly or too earnestly express the hope that the taxpaying community will adopt some means of sifting this proposed scheme to the very minutest details before committing them selves to its unconditional adoption. It is a common managuve in certain quarters to look upon all criticism of gestions as opponents to sanitation in the abstract. Residents who have acquired some knowledge of the Colony can afford to smile at such tactics; and who has the interest of this Colony at heart, and who has an opinion to give, to give that opinion upon a subject of such vital importance as this is.

In the present instance, however, there would appear to be some evidence to show that the Nibilists were not concerned in the fatality. A telegram from Paris positively says that the accident was not the result of an attempt on the life of the Czar. But the accuracy of this statement is somewhat shaken by the fact mise how the spring of 1889 will find the that it is incorrect in another respectviz, in saying that the train was proceeding towards Sebastopol when the ac- on the 16th inst At the present time there cident happened. From the Japan papers are in Chemulpo four men-of-war :-- one we learn some further particulars, which, however, do not throw any light on the cause of the catastrophe. From the telegrams received in Japan it appears that the train went off the rails on the main line | tablished by Governor Liu in that island from the Caucasus to Moscow. Fortunately the Imperial Family chanced to be breakfasting at the time in the saloon carriage. which was the last, or nearly the last, of district says :- About Tls. 40,000 have been the train. MOORE'S GOGO SHAMPOO WASH.

THIS WASH HAS PROVED ITSELF TO BE THE BEST PREPARATION EVER PRE-SENTED TO THE PUBLIC.

THE Bases of this compound is made of Gogo Root. The natives of the Philippine Islands never use anything clse for washing their hair; you never see them bald, and it is quite common to see the females with hair from 5 to 6 feet long. By using this SHAMPOO WASH as directed, you will never be bald. The Proprietor offers the Wash to the public, being entirely confident that by its restorative properties it will surely arrest decaying hair, completely eradicate scurl, dandruff, and cure all dis eases of the scalp : it does not contain any poisonous drugs, but, by its moling properties allays the itching and fever of the sca. Mr. MOORE has succeeded in being able to put this Wash up in bottles without allowing it to ferment, and he will guarantee

it to keep any length of time in any climate. CAMPBELL, MOORE & Co., LAD., Under Hongkong Rotel.
